

Collective creation: positive and negative feelings in the time of Covid

Positive feelings

Negative feelings

The covid

Negative emotions: since the covid-19 attacked the world we are forced into the house, we can't play with our friends.

Positive emotions: during this time we discovered the technology world and we spend more time with the family.

What nasty Corona Virus!
The Corona Virus has become part
of our daily life and has put
us all closed in four walls
without being able to go
out. The children had to
take online lessons without
being able to see their friends.
I considered so many things for
granted like my friends, my tea
dew, my beloved parent.
I thought I would lose them
I don't know what I would
do. I ~~had~~ know somebody who

lot important people to them be-
cause of this virus. I miss you
so much I hope to see you
again soon.

WE CAN DEFEAT THE VIRUS!

STAY AT HOME AND STAY SAFE!

THEN WE CAN GO BACK
TO HUGGING OUR FRIENDS!

THE COVID MADE US STAY AT HOME.

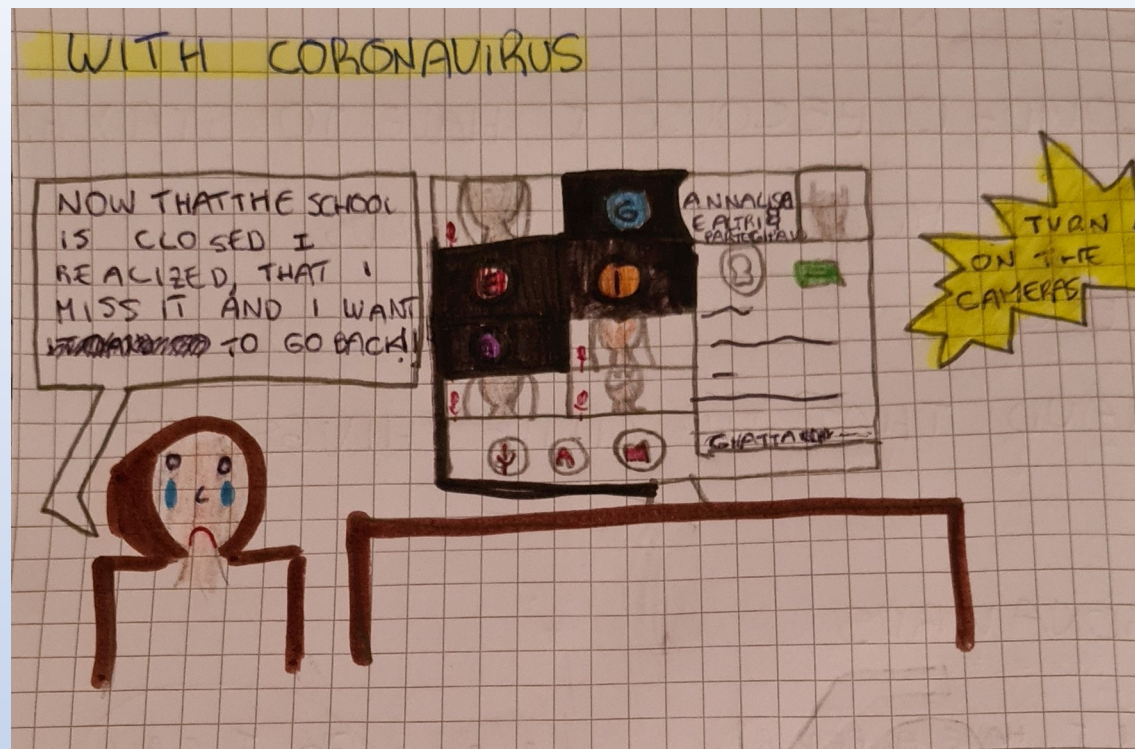

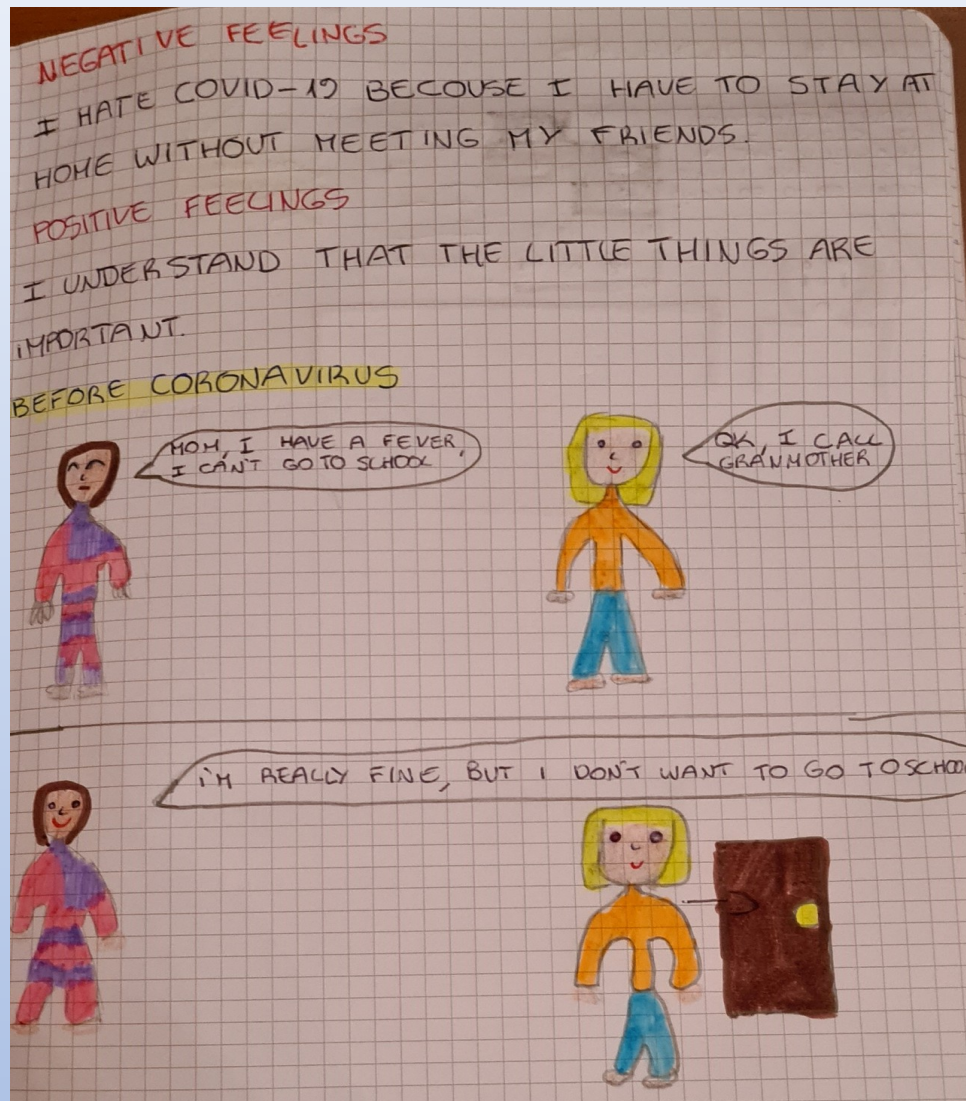

THE POSITIVE IS THAT WE DON'T GO TO SCHOOL, BUT THE NEGATIVE IS THAT WE CAN'T SEE OUR FRIENDS.

EDMUNOTE 8T
I QUAD CAMERA

All together we win,
distant we suffer.

THE COVID

THIS WAS A VERY DIFFERENT YEAR FROM THE OTHERS. THE COVID IS A VIRUS THAT HAS KILLED SO MANY PEOPLE. WE WERE FORCED TO STAY AT HOME WE COULDN'T SEE FRIENDS AND GO ON HOLIDAYS, BUT I HAD MORE FREE TIME. THE WORST THING WAS BEING CLOSED IN THE HOUSE FOR A LONG TIME.

WHO IS THE REAL HERO

YES

NO

Covid

51] Thus contagious ^{VIRUS} disease makes us understand *
that we should not complain because
there are always people who feel
worse of than us
* thank we are lucky

NO] It does NOT leave us the freedom
to experience to grow up, to be free, happy,
to be ourselves; it does not allow
us to follow our dreams

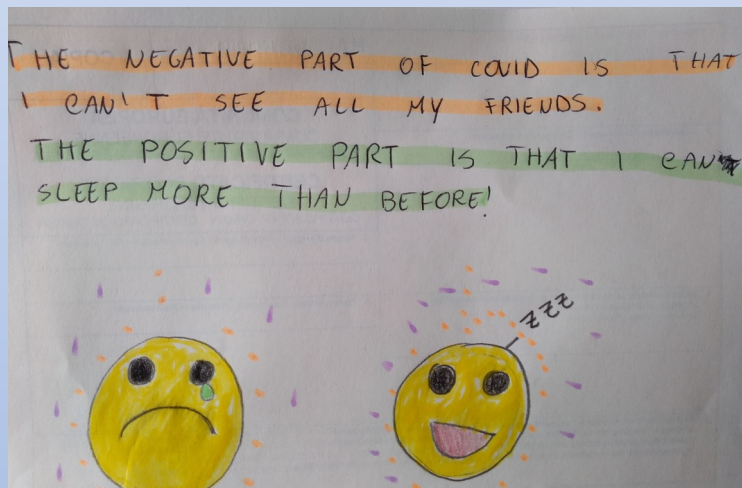

Let us remain distant today to embrace ourselves tomorrow. Let us stop today to run faster tomorrow.

*Rimaniamo distanti oggi per abbracciarci domani.
Fermiamoci oggi per correre più veloci domani.*

THE NEGATIVE PART OF THE COVID IS THAT I CAN'T SEE ALL MY FRIENDS ☹️

THE POSITIVE PART OF THE COVID IS THAT I CAN SLEEP MORE THAN BEFORE 😊

THE POSITIVE SIDE IS THAT ~~WE~~
WITH THE DAD THERE ARE FEWER HOURS
OF SCHOOL AND THE NEGATIVE SIDE
IS THAT MANY PEOPLE ARE DYING.

Time covid

I feel bored during this covid emergency, but I'm also lucky because I can stay with my family and play with them.

I feel also sad because I always stay at home and I do online lessons due ~~to~~ to the virus.

The Covid

The positive things of Covid are

- No school.
- More time to rest.

The ~~things~~ negative things of Covid are

- I can't visit my grandmother and stay with her
- I can't play in the park with my friend

Positive AND NEGATIVE feelings in the time of Covid-19.

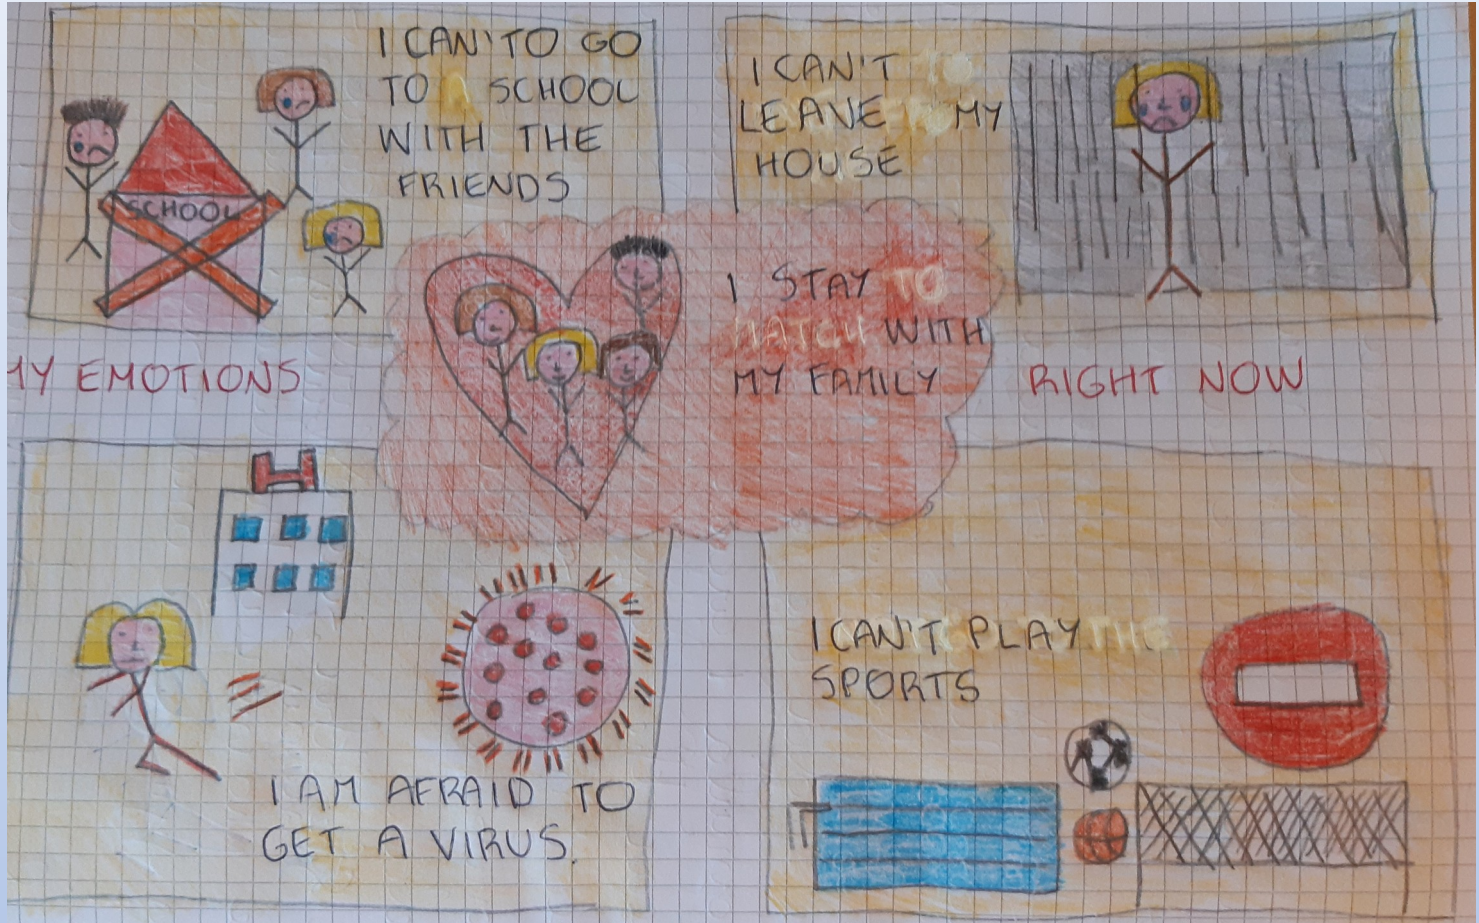

Positive:

There AREN'T POSITIVE feelings.

Negative:

There is the DAD, NO PARTY, NO FOOTBALL, the mask, NO RUNNING, NO RIDING the BICYCLE... AND ANOTHER MILLIONS AND BILLIONS OF NEGATIVE feelings.

we're not heroes, so we
can't ~~not~~ expel the virus.
but we are men, unique
and united, so we will
be able to defeat everyth-
ing and everything.
(we are myths)

Martina Z.

noi non siamo eroi, quindi
non possiamo espellere il
virus.
ma noi siamo uomini,
unici e uniti, quindi
riusciremo a sconfiggere
tutto e tutti.
(siamo dei miti)

Martina Z.
